

If you're interested in a career in cybersecurity, this training could be a good option.

1. Organization providing the training:

Baltimore Cyber

2. Physical location where training occurs:

All training takes place online.

3. Description of the training offered:

The program offers trainees instruction in the information technology and cybersecurity industries in preparation for entry-level career positions. The training is organized into five modules:

- The first two modules include soft skill training along with the necessary lectures, laboratories, and practice tests necessary for the CompTIA A+ certification, Network+ certification and Sec+ certification. The instruction time for the first two modules is approximately four hours a day, five days a week. This equates to approximately 320 hours of instruction.
- Upon completion of the first two modules and successful acquisition of the three certifications, Module 3 teaches elements of the Linux Operating System and an introduction to Command Line. This module includes 40 hours of training.
- Module 4 includes 40 hours of instruction on the tools and techniques utilized in a Secure Operating Center (SOC).
- Module 5 is 40 hours of hyper-realistic training scenarios taught on Baltimore Cyber's virtual cybersecurity range.

4. Trainees have the opportunity to earn the following industry-recognized certifications:

- CompTIA - A+
- Network+
- Security+
- Baltimore Cyber - Range Training Certification

5. Am I eligible?

To be eligible for this training program, applicants must:

- Be a United States citizen who resides in Maryland.
- Have no criminal background.

- Be at least 18 years of age by program completion.

6. What is the application process?

To apply for this training program, please visit our website at www.bccyber.com.

7. How much can I expect to earn if I complete this program and obtain employment in the cybersecurity field?

Trainees who complete this program and obtain employment can expect to earn an average starting wage of \$15 per hour.

8: How much do I have to pay for this program?

There is no cost to trainees.

9. Where can I find more information?
