Call 410-771-8111

Hear first-hand from some of Baltimore County's leading manufacturers on what it's like to work in the manufacturing industry and at their specific companies.

Jobs in manufacturing offer exceptional pay, job security and the satisfaction of producing products that are enhancing, enriching or even saving lives.. Company reps will share info on their product offerings, company culture, career and growth opportunities, team member benefits and more. Each manufacturer will have 30 minutes for their presentation and Q&A from virtual attendees. Attendees can tune into one, multiple or all presentations. See the online Agenda for the presentation schedule.
