ENVIRONMENTAL SUPERVISOR – Job Order 1567328

Job Summary

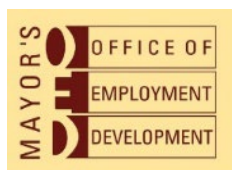

Reporting directly to the Corporate Director of Quality, R&D, and Environment. The Environmental Supervisor role requires a proven professional to ensure compliance with environmental legislation and laws, handling inspections while ensuring internal requirements are met from all employees for all facilities.

Job Responsibilities:

- Ensure compliance with environmental legislation and internal requirements
- Assess, analyze and collect environmental performance data/indicators for reporting information to internal staff, and regulatory bodies
- Develop strategies to meet environmental targets and encourage best practices
- Advocate for environmental improvements within the Pompeian organization
- Ensure information is up to date with relevant changes in environmental legislation and initiatives including internal or clients requirements when applicable
- Support the Corporate Director of Quality, R&D, and Environment in the assessment of environmental risks, creating, implementing, and updating the Environmental Program for all Pompeian facilities
- Support Quality department objectives in a manner that promotes food safety and employee safety
- Manage the maintenance and development of all company certifications for the Environmental Management System for all facilities
- Act as the liaison and serve as the point person with regulatory bodies such as EPA (Environmental Protection Agency), Maryland Department of the Environment, and California Environmental Protection Agency
- Identify, analyze, and evaluate, environmental impacts and make recommendations to the leadership team on how to minimize impact
- Implement, maintain procedures, writing plans and reports for Environmental Management System, interacting with internal staff including senior managers and directors
- Create and design environmental training programs, educational resources for staff at all levels including external partners
- Ensure that all facilities are audit ready at all times while handling inspections
- Manage environmental contracts in coordination with other departments
- Manage any other projects as assigned

Pompeian Olive oil is growing and adding to the new warehouse location at Trade Point Atlantic on Sparrows Point road. We are also seeking candidates for our Pulaski Highway location. The forklift operator is responsible to operate a forklift in a safe manner, move finished goods or raw materials, and follow all quality procedures

Responsibilities:

- Follow all GMPs and proper PPE requirements at all times while operating forklift
- Follow operating procedures in order to reduce shipping errors using hand scanners
- Load and unload trucks
- Move finished goods and raw materials using double-forks
- Use handheld scanners to scan materials while working closely with other forklift operators
- Pick orders in a timely manner and report any discrepancies to supervisors
- Ensure paperwork is completed on time with zero mistakes
- Ensure FIFO is used at all times
- Previous forklift experience is a must

Qualifications:

- Experience in a warehouse or manufacturing facility is preferred
- Minimum one year of experience driving and operating forklift
- Must demonstrate safe use of a forklift and understand safety measures using a forklift
- Experience using hand scanners and tracking
- Experience stacking pallets in a racking system
- Experience loading and unloading pallets of material

**Pompeian requires all newly hired staff to be fully vaccinated (or be willing to be fully vaccinated) against COVID-19. If selected, you will be required to submit proof of COVID-19 vaccination.
