

We are looking for a **Project Sourcing Specialist** to make material handling products and equipment

Honeywell Intelligated is a leading North American-based, single-source provider of intelligent automated material handling solutions that drive fulfillment productivity for retailers, manufacturers and logistics providers around the world.

In this role, you will develop, implement and manage category-sourcing strategies for allocated portfolio of expenditure. For both areas, the main portfolio will be 3rd party equipment and services plus contract manufacturing. The focus will be on local sourcing, selection, contracting, and contract management/ project execution support, based on Quality, Logistics, Technology and Cost.

WHAT YOU WILL DO:

- Sourcing
- Subcontract management
- Supply chain management

YOU MUST HAVE:

- 5+ years global experience in Project Engineering/Operations/Supply Chain Management/Sourcing/Procurement
- Bachelor's Degree

WE VALUE:

- Bachelor's Degree in Mechanical or Electrical Engineering
- Strong technical background and expertise for anticipated commodity portfolio
- Experience with organizations in a project environment
- CIPS and/or CPM certification desired
- Awareness of market forces that impact business opportunities and threats
- Interpersonal skills appropriate for a negotiator
- Strong verbal, written and presentational communication skills
- Strong PC and quantitative analysis skills
- Experience with ERP systems
- Experience in continuous improvement programs, either on the shop floor or in an office environment.
- Experience in working both in the OEM and Contract Manufacturing space for a balanced business perspective
