

SAFE + SOUND

Maryland Occupational Safety and Health (MOSH) is pleased to announce our upcoming 2019 Safe + Sound events for General Industry and Construction

WHY PARTICIPATE?

Safe workplaces are sound businesses. Successful safety and health programs can proactively identify and manage workplace hazards before they cause injury or illness, improving sustainability and the bottom line. Participating in one of our Safe + Sound events can help jumpstart a safety and health program or reenergize an existing one, and it is a great opportunity to take part in an engaging, hands-on learning experience.

WHO PARTICIPATES?

The program is led by MOSH personnel who are experts in all phases of occupational safety and training. We encourage participants from organizations of every size, in any industry, who want to ensure that their employees, customers, supply chain partners and the public have safe workspaces in which to work and transact business.

YOU WILL LEARN

There will be something for everyone including educational workshops, live demonstrations, interactive virtual reality and more!

WHAT IS SAFE + SOUND?

Safe + Sound Week is a nationwide event, August 12 – 16, 2019, intended to raise awareness and encourage businesses to think proactively about safety. Participating in Safe + Sound Week shows your commitment to safety and focuses on management leadership, worker participation, and a systematic approach to finding and fixing hazards in workplaces. We invite you to attend our *free* events at the Maryland Occupational Safety and Health (MOSH) offices:

General Industry: August 14th / 8:30 AM – 12:30 PM

Construction: August 15th / 8:30 AM – 12:30 PM

at:

**10946 Golden West Drive, Suite 160
Hunt Valley, Maryland**

TO REGISTER:

Participating in Safe + Sound Week is easy! Select which Safe + Sound event you would like to attend and register online at <http://www.dllr.maryland.gov/labor/mosh/train.shtml>, or call (410)527-2091. ***Space is limited to 40 participants per session*** Reserve today!

Hosted By: MOSH Consultation and MOSH Outreach Programs
