

Limited Esthetician Scope of Practice Guidance

I. Purpose & Overview of Licensure

This document provides guidance on the scope of practice for Limited Estheticians licensed under the Maryland Board of Cosmetologists. It helps clarify which services are permissible and which are outside the scope of practice for this license type. This guidance is intended for reference purposes to support consistent practice and compliance and is based on the Maryland Code Business Occupations and Professions Article [§ 5-101](#) and [COMAR](#) regulations.

II. “Do’s & Don’ts” - Permitted & Prohibited Services

III. Additional Guidance

If a service you are seeking guidance on is not listed in this document, please refer to [Maryland Board of Cosmetologists COMAR regulations](#) for clarification.

Important: Any service that penetrates beyond the epidermis is not permissible for Limited Estheticians or Cosmetologists. There are no exceptions unless the individual also holds the appropriate health occupation license that authorizes the procedure.

This ensures that all practitioners remain within their legally defined scope of practice and maintain client safety in accordance with Maryland law.
